Release date: 10. 02. 2008

Suggested retail price: € 6,99

Distributor: Discomania

About the artist:

Michael Walgram, born and still living in Steyr, started his DJ career at the age of nineteen. At that time he was dj-ing at small private parties, heating up the vibes with commercial beats. The artist Mike Turrento was born. However, he soon started to alter his style and went from commercial music to fine, chilly, yet pumping and pounding Tribal Techno. He is especially known for enriching his sounds with numerous sound effects using different equipment. The hype of “Minimal Techno” did not alter his individual style, yet he tried to combine Minimal and Classic Techno with Breakbeats. Through adding Skillbreaks, Speedbreaks, Scratches and Spins, he managed to find the perfect mixture and created outstanding Classic Breakbeat Techno Sets. His first release (ELMA002) is already in the Top10 of Techno legend Dave Clarke and Ben Sims.
