About the artist:

Mike Absolom is back on elmart with his 'Evolution EP'. This time he produced two stunning Euro-Techno tracks. 'Life is too short' is ass shaking Techno at its best while 'Enter the next Level' takes you on a journey deep into the groove. In November 2008, Mike Absolom released his first vinyl single 'From Absolom to Heaven' on 'elmart'. A few month later, he did several remix projects for Mike Turrento's 'Tele Commander' on 'elmart', Stefano Vozza's title '20' on the Irish label 'Dublin Xpress Records' and Rob Glennon on 'Nice & Nasty Records' with other remixers like Orlando Voorn, Paul Mac and many more. His Euro-Techno EP 'Dark Ride' with the tracks 'Fuel' and 'Engine', and his remix of 'Doubledeckers' track 'Blue Horizon' on 'Dublin Xpress
